# History

Quality, style and experience at the table.

Sambonet has represented Italian excellence in silver and stainless steel Cutlery and holloware production since 1856. From the most classic styles to experiments with the latest designs, Sambonet has won numerous prestigious international awards, including the Compasso D'Oro ADI, Red Dot and GOOD Design Award. Sambonet perfectly combines tradition and innovation, safeguarding quality and carefully crafted details.

Qualità, stile ed esperienza in tavola.

A partire dal 1856 Sambonet rappresenta l'eccellenza italiana nella produzione di posateria e vasellame in acciaio inox e in acciaio argentato. Dai modelli più classici alle sperimentazioni contemporanee di design, insignite dei più importanti riconoscimenti internazionali come Compasso D'Oro ADI, Red Dot e GOOD Design Award, Sambonet sposa tradizione e innovazione, salvaguardando qualità e cura artigianale dei particolari.

Qualität, sti und erfahrung zu tisch.

Seit 1856 steht Sambonet für italienische Exzellenz bei der Herstellung von Besteck und Geschirr aus Edelstahl und versilbertem Stahl. Von den mehr klassischen Modellen hin zu den zeitgenössischen Designentwürfen, prämiert mit den wichtigsten internationalen Auszeichnungen wie Compasso D'Oro ADI, Red Dot und GOOD Design Award, verbindet Sambonet Tradition und Innovation und bewahrt dabei die Qualität und die handwerkliche Fertigung der Details.

# Silverplating

Precious, elegant and timeless.

The purity of the silver combined with the certified quality of steel and German silver are the base of Sambonet's silver production excellence. In respect to traditional silverplating, the exclusive H&P Hard Sambonet Silverplating technique ensures greater durability and resistance to the tarnishing of the product's silver coating. Each Sambonet silver product has its origins in stainless steel AISI 304 or alpacca silver, made 66% of copper, 13% of nickel and 21% of zinc and enriched with 999.5% pure silver.

Prezioso, elegante e senza tempo.

La purezza assoluta dell'argento, assieme ai requisiti certificati dell'acciaio e dell'alpacca, sono alla base della qualità della produzione Sambonet. Rispetto all'argentatura tradizionale, l'esclusiva tecnica H&P Hard Sambonet Silverplating conferisce maggior durezza e resistenza alla solforazione del rivestimento argentato. Ogni produzione argentata Sambonet trae origine da posate in acciaio inox AISI 304 o in Alpacca, lega costituita da rame al 66%, nickel al 13% e zinco al 21%, e viene impreziosita con argento puro al 999,5%.

Wertvoll, elegant und zeitlos

Die absolute Reinheit des Silbers, zusammen mit den bescheinigten Eigenschaften des Stahls und des Alpakas bilden die Grundlage für die Qualität der Produktion Sambonet. Gemessen an der traditionellen Versilberung verleiht die exklusive Technik H&P Hard Sambonet Silverplating der Schwefelung des Silberüberzugs größere Härte und Widerstandsfähigkeit. Bei jeder versilberten Produktion von Sambonet besteht der Kern des Bestecks aus Edelstahl AISI 304 oder aus Alpaka, einer Legierung aus 66 % Kupfer, 13 % Nickel und 21 % Zink, und wird mit reinem Silber zu 999,5 % veredelt.

## Jet Set

Trendy textures inspired by dream holiday locations and international jet-set destinations. A fashionable relief on the entire body of the cutlery, both front and back, for extremely refined mise-en-place. Sambonet offers innovative stylistic interpretations of stainless steel, opening up the table to design-oriented moods and contaminations. Elite ski resorts, enchanting landscapes and cities of art: suggestions for classy settings and unique atmospheres.

Texture di tendenza ispirate a luoghi di vacanza da sogno e alle mete del jet-set internazionale. Un rilievo fashion impresso sull'intero corpo della posata, sia fronte che retro, per mise-en-place estremamente ricercate. Sambonet offre innovative interpretazioni stilistiche per l'acciaio inox, che aprono la tavola a mood e contaminazioni di design. Stazioni sciistiche d'élite, paesaggi d'incanto e città d'arte: suggestioni per allestimenti d'alta classe e atmosfere uniche.

Dieses Design mit seiner modernen Textur hat sich am Gefühl eines Traumurlaubs inspiriert und an den Locations des internationalen Jetsets. Eine stylische Prägung schmückt sowohl die Vorder- als auch die Rückseite der Besteckteile - für ein Mise en place von vollendeter Eleganz. Sambonet bietet innovative Stilinterpretationen für Edelstahlbestecke, die dem gedeckten Tisch die richtige Optik für Design-Verschmelzungen geben. Ob exklusive Küstenorte, angesagte Skigebiete, bezaubernde Natur oder Kunststädte: Mit der neuen Kollektion Jet Set vermitteln Sie Ihren Gästen Klasse und Weltgewandtheit.

# Diamond

Sambonet's Diamond finish is the result of the brand's savoir fair, its desire to innovate with continuous technological research and its exclusive workmanship. This special process gives the material vibrant shiny accents and, at the same time, naturally inhibits the formation of scratches, conceals the inevitable signs of wear and preserves objects brilliant and unaltered over time.

Frutto del savoir fair, del desiderio di innovare e della continua ricerca tecnologica dell'azienda, la finitura Diamond è il risultato di una lavorazione esclusiva di Sambonet. Questo speciale processo conferisce al materiale vibranti accenti luminosi e, al contempo, inibisce naturalmente la formazione di graffi, cela gli inevitabili segni di usura e preserva gli oggetti brillanti e inalterati nel tempo.

Das Finish Diamond von Sambonet ist mit seiner exklusiven Technik das Ergebnis des „savoir faire“, des Wunschs nach Erneuerung und der ständigen technologischen Innovation des Unternehmens. Dieser besondere Bearbeitungsprozess gibt dem Material vibrierende Lichtakzente und verhindert gleichzeitig Kratzer. Außerdem verschleiert er die unvermeidlichen Zeichen der Zeit durch seine Brillanz und Langlebigkeit.

# Physical Vapour Deposition

PVD, which stands for Physical Vapour Deposition, gives the objects exceptional colours and shades. It consists of the deposition of metallic particles through vaporization in a vacuum chamber. The coating is welded on an atomic level to the stainless steel, giving the material greater hardness and resistance to rubbing and corrosion, thereby preventing the formation of rust or oxides. This is the result of a technological research, along with the endless experience in producing stainless steel that is in Sambonet's DNA.

Il PVD - acronimo di Physical Vapour Deposition - conferisce agli oggetti pregiate colorazioni e sfumature, ed è ottenuto dalla deposizione di particelle metalliche mediante vaporizzazione in una camera sottovuoto. Il rivestimento si salda a livello atomico al substrato in acciaio inox, dotando il materiale di maggiore durezza e di resistenza sia all'usura per sfregamento che alla corrosione, inibendo la formazione di ruggini o ossidi. Un processo frutto di un'accurata ricerca tecnologica, unito all'esperienza nella produzione dell'acciaio inox, dà sempre nel DNA Sambonet.

PVD (Physical Vapour Deposition) ist ein Verfahren, das den Gegenständen wertvolle Färbungen und Nuancen verleiht und wird erzeugt durch Ablagerungen metallischer Partikel mittels Zerstäubung in einer Druckluftkammer. Dieser besondere Überzug wird auf atomarer Ebene auf das Edelstahlträgermaterial des Bestecks geschweißt und verleiht diesem größere Härte und Widerstandsfähigkeit sowohl gegen Abnutzung durch Abrieb als auch gegen Korrosion, indem es die Bildung von Rost oder Oxiden verhindert. Verfahren ist das Ergebnis technologischer Forschung und der umfassenden Erfahrung von Sambonet in der Herstellung von Edelstahl.

# Antique

The unique "Antique" finish is characterized by the pleasant to touch texture and the original matt appearance of the stainless steel. This finish is the result of a high pressure ceramics sandblasting treatment, by means of micro ceramic particles, which defines the final effect of the surfaces.

Il particolarissimo effetto "Antique" si caratterizza per una sottile texture piacevole al tatto e, nel contempo, per l'inedita resa opaca che assume l'acciaio. La finitura è il risultato di un trattamento di sabbiatura ad alta pressione mediante microparticelle in ceramica, che definisce l'effetto finale delle superfici.

Der besondere Effekt „Antique“ zeichnet sich durch seine feine Textur mit angenehmer Haptik und durch die neuartige matte Erscheinung des Edelstahl aus. Die Oberflächenbehandlung ist das Ergebnis einer Hochdruck-Sandstrahlbehandlung mit Keramik-Mikropartikeln, die den Oberflächen das endgültige Aussehen verleiht.

## Antique PVD

Texture and colour can be combined together, in order to establish a personal style on the tabletop. In this case, the processes take place in consecutive phases, from the different abrasive techniques to the colouring ones. Combining these two treatments, Cutlery assumes original effects.

Texture e colore possono essere combinate tra loro, per ricercare anche in tavola il proprio stile. In questi casi i processi si articolano in più fasi produttive che si susseguono partendo dalla lavorazione con le differenti tecniche abrasive dello strato superficiale per poi passare alla sua colorazione. Il mix tra queste due lavorazioni dona così inediti effetti alle collezioni.

Textur und Farbe können miteinander kombiniert werden, um auch bei Tisch den eigenen Stil zu finden. In diesem Fall gliedern sich die Prozesse in mehrere aufeinanderfolgende Produktionsphasen, beginnend bei den verschiedenen Schleiftechniken für die Oberfläche, bis hin zur Färbung. Die Mischung dieser beiden Bearbeitungstechniken verleiht den Kollektionen neuartige Effekte.

# Vintage

The captivating Vintage surface is a tribute to Sambonet's great and iconic design projects. It uses a special craftsman finishing technique on the surface of the stainless steel Cutlery. Through a series of industrial scraping processes, surfaces assume an original and intentionally "worn out" effect, introducing a new and fascinating ambiance at the table and a new trend for contemporary interior design.

L'attraente superficie Vintage è un omaggio ai grandi classici e progetti iconici di design di Sambonet. Si tratta di una particolare lavorazione meccanica di finitura di massa del substrato delle posate in acciaio inox. Mediante una serie di processi industriali di natura abrasiva le superfici assumono una inedita resa, un effetto volutamente "usurato", che introduce un nuovo ed affascinante gusto in tavola e di tendenza per l'interior design contemporaneo.

Die faszinierende Oberfläche „Vintage“ ist eine Hommage an die großen Klassiker und die bildhaften Designprojekte von Sambonet. Es handelt sich um eine besondere mechanische Bearbeitung zur Massenveredelung des Edelstahlbesteck-Trägermaterials. Mittels einer Reihe industrieller Schleifprozesse erhalten die Oberflächen ein ungewöhnliches Aussehen, einen gewollt „abgenutzten“ Effekt, der einen neuen und faszinierenden Genuss bei Tisch und einen Trend des zeitgenössischen Innendesigns bewirkt.
