★ NEW COLLECTIONS

**Prints by Bonna:**  
**A small step for you, a bigger one for them**

What we take from the earth, we give it back. We reduce our carbon footprint with the Prints Collection, which we produce from 100% recycled material. We cooperate with WWF-Turkey so that threatened wild animals can take one more step on earth.

Every piece of Prints collection is genuinely inspired by the tail and footprints of threatened species. With every Prints product that can be put on the table, it is possible to draw attention to living creatures whose future is in danger and to make them leave another mark on the world.

### Sustainable and Eco-Friendly Products

Prints by Bonna products are produced from 100% recycled industrial waste within the framework of Bonna's understanding of efficiency in the use of natural resources and sustainability in production. Bonna invites you to participate in this transformation from the table, with these products that it produced without wasting the resources of our planet.

**HALO**

Special edge design of HALO Collection awaits for master chefs, to deepen the presentations they create using dozens of colors, aromas and flavors. Inspired by the movement of the universe and the dynamics of nature, angular design of circular forms uses the reflection of light impressively. Thus this effortless simplicity allows you to create spectacular presentations and make food the hero of the whole setting. Crown your presentations with modern and balanced touch of HALO Collection, mirroring the circular motions of nature.
