We have been associated with the glass market for **over 25 years.** Designing and producing utility glass is our passion.

We started with the implementation of outsourcing projects for the largest manufacturers in the industry, but the dream of creating our own brand producing glass has always been with us, until it finally became a reality - **the Nuform brand was created in 2019. Our glasses and tumblers contain titanium.**

We offer Nuform brand glassware worldwide, with **offices located in Poland and Germany.**
